Answer all four questions.

Each question to be answered in a separate book.

1. Discuss the comprehensive management of pan-facial fractures highlighting commonly used surgical approaches.

2. Discuss the management of vascular lesions of the head and neck giving examples.

3. Discuss how examination of the hands assists diagnosis of medical disorders.

4. Discuss in detail the surgical management of acute upper airway obstruction highlighting the aftercare and complications.

POSTGRADUATE INSTITUTE OF MEDICINE
UNIVERSITY OF COLOMBO

MD (ORAL SURGERY) EXAMINATION – MAY 2012

PAPER II

Date: 21st May 2012

Time : 2.30 pm – 5.30 pm

Answer all four questions.

Each question to be answered in a separate book.

1. What do you understand by the term ‘oral potentially malignant disorders (OPMDs)’? Write an account of the clinical aspects of the three (3) most important OPMDs, and a brief evaluation of the current practices pertaining to their management.
2. Discuss possible clinical presentations, differential diagnosis and histopathological patterns of granulomatous disorders of the head and neck region.
3. A patient presents with anterior cross bite. Discuss possible aetiological factors and management.
4. Write an account of fungal diseases of the upper aerodigestive tract including their clinical significance and management.
