UNIVERSITY OF COLOMBO

MD (RESTORATIVE DENTISTRY) EXAMINATION – MARCH 2017

PAPER I

Date :- 6th March 2017

Time :- 1.00 p.m. – 4.00 p.m.

Answer all four (04) questions.

Each question to be answered in a separate book.

1. How would you assess a patient who is seeking aesthetic dental treatment?
2. “Adhesive dentistry has led the restorative practice to be biologically rewarding with reliable restorations”. Discuss this statement using different clinical applications in restorative dentistry.
3. Discuss the conventional denture therapy for an adult patient with Down’s syndrome who has been edentulous in the lower jaw for approximately ten years. The patient’s upper arch is satisfactorily restored.
4. Discuss the role of the restorative dentist in the multidisciplinary management of a patient who is to undergo partial maxillectomy and radiotherapy.
