

POSTGRADUATE INSTITUTE OF MEDICINE

UNIVERSITY OF COLOMBO

MD (ORAL PATHOLOGY) PART I EXAMINATION – JANUARY 2014

Answer FOUR (04) questions only.

Each question should be answered in a separate answer book.

DATE: 20.1.2014

TIME : 2.00 PM – 5.00 PM

1. Discuss the factors that would adversely affect healing of a tooth extraction socket.
2. Discuss the different pathological processes that may be seen in a salivary gland in which the main duct is obstructed by a calculus.
3. Histopathological classification of ameloblastoma into different types is justifiable. Discuss the above statement.
4. Discuss the factors which would be helpful to differentiate pseudoepitheliomatous hyperplasia (PEH) from other epithelial proliferations. Describe the oral lesions that may display PEH.
5. Discuss the role of viral infections in diseases of the oral and maxillo-facial region.
