

POSTGRADUATE INSTITUTE OF MEDICINE
UNIVERSITY OF COLOMBO

MD (ORAL & MAXILLOFACIAL SURGERY) EXAMINATION
FEBRUARY 2021 (RESCHEDULED)

PAPER I

Date:- 7th February 2022

Time:- 1.00 p.m. – 4.00 p.m.

Answer all four (04) questions.

Each question to be answered in a separate book.

1. Discuss the management of soft-tissue injuries affecting the facial region (excluding burn injuries).

2. Discuss the presentation, diagnosis and management of condylar hyperplasia.

3. A 45-year-old man presents with a painless, level II mass on the left side of neck of 4 weeks duration.
Discuss the diagnostic work up of this patient.

4. Discuss how you would minimise bleeding in a surgical patient.

POSTGRADUATE INSTITUTE OF MEDICINE
UNIVERSITY OF COLOMBO

MD (ORAL & MAXILLOFACIAL SURGERY) EXAMINATION
FEBRUARY 2021 (RESCHEDULED)

PAPER II

Date:- 8th February 2022

Time:- 9.00 a.m. – 12.00 noon

Answer all four (04) questions.

Each question to be answered in a separate book.

1. Give an account on “orofacial manifestations of autoimmune diseases.”
2. Discuss the pathology of fibro-osseous lesions (FOLs) of the craniofacial skeleton and indicate their clinical significance.
3.
 - 3.1. Outline the criteria you would use to diagnose acute kidney injury in a post operative patient.
 - 3.2. Briefly explain the pathogenesis of thrombocytopenia in a patient who has cirrhosis with portal hypertension.
 - 3.3. State clinical features that would make you suspect chronic congestive heart failure in a 60-year-old man. Explain the pathogenesis of one (01) of these features.
 - 3.4. List five (05) different categories of drugs used in the treatment of chronic heart failure. Give one (01) example for each category and one (01) main side effect for each drug you mentioned.
4. Discuss the management of infra-occluded deciduous teeth.
